

Mt Gravatt State High School Parents and Citizens Association

The P&C has been putting together a Strategic Plan with a vision for two significant projects to enhance school facilities. They welcome input and feedback from the school community – parents, students, staff and anyone else who is interested.

A Cool School

A Cool School is a school that combines environmentally sustainable and physically comfortable grounds and facilities, supported by a respectful active and productive school community. This project aims to maximise the learning environment for students, and provide a comfortable workspace for staff. This is particularly important in summer months when classroom temperatures can place stress on students and staff.

Artistic Arena

With the growth in participation in all areas of Performing Arts at Mount Gravatt State High, the P&C believe it is time to provide an **Artistic Arena** to showcase student talents. Initially beginning with a revamp of existing facilities, such as the School Hall, right through to a dedicated Performing Arts complex. This will not only provide a valuable performance space, but also classrooms and soundproof teaching and practice rooms.

How Can you Help?

If you are a member of the school community, your input is most welcome. It could be as simple as joining the P&C to help boost numbers, through assisting with organising events or and involvement in projects, to providing more significant financial and non-financial support. Please contact the P&C at pandc@mtgravattshs.eq.edu.au, or fill in an application P&C membership form available at: <https://mtgravattshs.eq.edu.au/>.
